Forecast for Sunday 17 Nov 2024

Weather: A dry and bright start to the day with some early sunshine after a dry overnight period. Cloud will thicken in the afternoon as a band of rain moves in from the west later in the day. Fresh northwesterly winds continuing with a significant windchill likely in the morning.

Maximum wind: Northwesterly 15-20mph.

Chance of cloud-free hill tops above 600m: 90% falling to 30% by late afternoon, cloud will spread in from the west later in the day.

Low cloud and visibility: Patchy cloud above 500m can be expected during the morning but most tops clear. Cloud will thicken and lower by late morning with layers above 400m developing by mid afternoon. Visibility will be very good during the morning but turning hazier. As the rain moves in visibility will be moderate or poor by mid afternoon.

Temperature: **Valleys:** Plus 3 rising to 9 Celsius.
At 600m: Plus 2 rising to 4 Celsius.
Freezing level: 800m rising above all summits.
